600W dimmer**

**(Model # MRF2-Pico™-WH-ED)
Valued at \$100.00**

Product Spotlight

Maestro Wireless® local lighting controls

A full range of light controls, fan controls, and timers that allow adjustment from anywhere in a room, or even outside the space. New wireless models can be controlled from Lutron Pico® Wireless Controllers and Lutron Radio Powr Savr® ceiling mount occupancy/vacancy sensors. Lights can now be remotely controlled or automatically turned on/off when someone enters or leaves a room. RF operation provides quick and easy wireless installation.

NEW

Maestro Wireless® | residential & commercial light control

Innovative wireless controls that provide flexibility, convenience, and easy installation and set up.

Pico™ wireless control

Maestro Wireless®

What is Maestro Wireless?

Maestro Wireless is a light control system that's ideal for creating custom solutions for residential and commercial spaces.

What's new?

The Maestro Wireless family of lighting controls has expanded to include **sensors** and **lamp dimmers**, as well as **table stands** and **wall mounts**.

In addition, Maestro Wireless now incorporates Lutron's reliable Clear Connect™ RF Technology for **wireless connectivity to sensors, wall dimmers, handheld dimmers, and switches**.

What are the benefits?

- Contractors can pull less wire by mounting a **Pico™ wireless control** instead of creating a new 3-way control, as well as installing a **Radio Powr Savr™ wireless sensor**.
- Set up is easy –
 - Less wires coupled with easy set up means less time spent on a job – while homeowners get more for their money.
 - Any contractor – from apprentice to senior electrician – can build custom solutions with the Maestro Wireless family, giving him more choices to offer to clients.

residential space

commercial space

butlersupply.com

Maestro Wireless uses Lutron's reliable **Clear Connect™ RF Technology** which allows Pico™ wireless controls and Radio Powr Savr™ occupancy/vacancy sensors to communicate with dimmers, switches, and lamp dimmers, allowing for easy retrofit.

dimmer

- single pole/multi-location
- halogen/incandescent, and MLV models
- specification and residential models

switch

- single pole/multi-location
- controls most load types for lights and fans
- specification and residential models
- **non-neutral version available**

lamp dimmer

- controls incandescent table or floor lamps

Radio Powr Savr wireless occupancy and vacancy sensor

- adjustable sensitivity
- adjustable setting for "lights on" level
- adjustable delayed time before lights turn off
- exclusive XCT™ Technology detects fine motion

Pico wireless control

- communicates wirelessly with up to 10 Maestro Wireless dimmers, lamp dimmers, and switches
- includes wall mount and car visor clip

wall mount

- included
- wallplate sold separately

car visor clip

- included
- works up to 100 feet away

table stand

- sold separately

Easy to set up

Maestro Wireless products can be set up quickly and easily.

Step 1

Press and hold the dimmer or switch tap button for approximately six seconds. Once the LED(s) starts to blink slowly, release the tap button.

Step 2

Press and hold the "off" button on the Pico™ wireless control or sensor for approximately six seconds. When the dimmer or switch learns the Pico wireless control or sensor, its LED and load will flash three times and the device will exit setup mode.

Repeat steps 1 and 2 to set up multiple Pico wireless controls or sensors to a single dimmer.
Repeat steps 1 and 2 to set up a single Pico wireless control or sensor to multiple dimmers.
