Dimmers for CFL•LED Dimmable Bulbs

What is a C•L Dimmer?

C•L dimmers are UL listed for controlling a broad range of dimmable CFLs and LEDs. They offer more reliable dimming performance over standard dimmers when dimming CFLs and LEDs, and also provide full range dimming for incandescent and halogen bulbs.

Benefits

- Enjoy the energy savings achieved from dimmable CFL and LED bulbs without sacrificing the ability to dim
- Dimming saves additional energy while creating just the right light for any mood or activity—Save up to \$50 per year 1 when combined with dimmable CFLs.
- Avoid experiencing common issues found when controlling dimmable CFLs and LEDs with a standard dimmer
 - Lamps turning off before the slider on the dimmer reaches the lowest setting (drop out)
 - Lamps not turning on after being dimmed to the lowest setting (pop on)
 - Lamps turning off when dimmed to low levels caused by voltage fluctuations
- The forward-thinking engineering ensures control of dimmable CFL and LED bulbs today as well as energy efficient light sources coming out in the future—invest in a dimmer that ensures dimming performance as the light source industry evolves
